The **Toy** Makers

WE **COLOR** THE WORLD

We are goki – for over 40 years, we have been producing wooden toys and making the world more colorful. We make wooden toys so that childhood remains an adventure. In 1981, Gerhard Gollnest and Fritz-Rüdiger Kiesel founded what is now one of the largest wooden toy manufacturers in Europe. Today, the company is based in Güster, Schleswig-Holstein, and employs over 450 people worldwide. We put a lot of love, experience, and responsibility into the development of toys for young adventurers. To help develop and encourage a child's imagination and creativity, toys must have high value.

In efforts to spread the joy of high-quality, eco-friendly, and sustainable toys across the Atlantic, goki started operating with its own subsidiary, goki America, in North America in 2021. goki America, is the exclusive American distributor of the company and offers our own brands goki and HOLZTIGER.

Furthermore, as a value-based family business, we focus on people, building a partnership with our business partners and caring for future generations. It is children who drive everything we do. That is why the careful utilization of resources, the quality of the toys, and the joy our products bring to the little ones are what matter most to us. goki was awarded the 16th German Sustainability Award as a pioneer of transformation in the toy industry. Since 2008, Europe's largest award for ecological and social commitment has shown what Germany's pioneers of sustainability have to offer. The German Sustainability Award is the national award for top achievements in sustainability in business, communities, and research.

Our story

Gerhard Gollnest and Fritz-Rüdiger Kiesel started selling toys in 1981.

Over the years, the small two-man business in Hamburg has become Northern Germany's largest toy manufacturer. Today the company is located in Güster and employs more than 450 people worldwide.

With a diverse portfolio comprising over 2,000 articles, Gollnest & Kiesel stands as one of the foremost producers of wooden toys. Annually, the company introduces up to 200 new product developments, delivering an impressive 20 million toys to over 80 countries worldwide. However, despite its considerable scale, Gollnest & Kiesel does not measure success solely by size.

As a family-owned business built on strong values, our priority lies in nurturing relationships with our partners and safeguarding the interests of future generations.

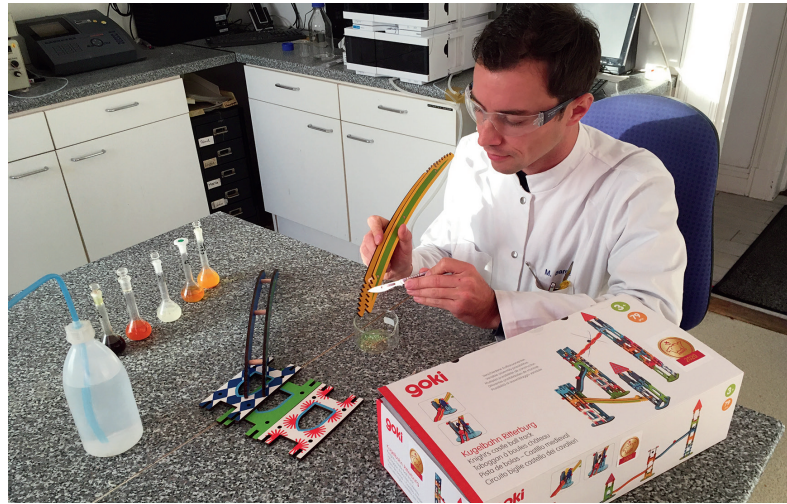

Children are at the heart of our mission, inspiring every aspect of our work. This is why we prioritize the responsible utilization of resources, the superior quality of our toys, and the happiness our products bring to young ones.

goki  **HOLZTIGER**
...join the family!

Our promise

With more than 40 years of expertise in toy manufacturing, a profound commitment to child safety, and a robust quality management system in place, Gollnest & Kiesel guarantees the safety of its toys. Each of our toys undergoes rigorous testing and meets ASTM F963 and EN71 certification standards, ensuring they adhere to the highest safety regulations.

Our production

By exercising thorough control over every aspect of the supply chain, Gollnest & Kiesel can ensure comprehensive adherence to both quality and social standards. The company's 5 factories not only provide manufacturing flexibility but also prioritize safety throughout the production process. This approach underscores our commitment to maintaining high standards across all facets of our operations.

Our achievements & awards

Good work is appreciated. By our customers, by independent expert juries, associations, editorial offices and end users.

We have received numerous awards, also from “markt intern”. Every 2 years, the middle market-oriented industry service surveys more than 4,000 specialist toy retailers in Germany,

Austria and Switzerland. For the third time in a row, Gollnest & Kiesel has been voted No. 1 specialist trade partner.

Our contributions for a better future

Sustainability and social commitment are indispensable for the company.

In 2004, Gollnest & Kiesel planted trees for the first time. Under the motto “A tree for every newborn child in Schleswig-Holstein”, Gollnest & Kiesel has

contributed in a small way to making the most sparsely wooded federal state in Germany a little greener.

More than 450,000 trees have been planted since the inception of this project.

150 million children worldwide are engaged in child labor, depriving them of their basic rights and opportunities.

This is why Gollnest & Kiesel is committed to building schools in developing countries, because education is the way out of poverty and child labor.

In cooperation with the children's relief organizations "terre des hommes" and "Children in Africa", ten schools have been built so far. Together with registered Arise e.V., Gollnest & Kiesel is currently building its eleventh school in Ghana.

Sustainability is a cornerstone of production at Gollnest & Kiesel. Our European factories are outfitted with either photovoltaic systems or utilize green electricity, contributing to our company's **climate-neutral energy footprint across Europe.**

**Enabling our children
to live in a world worth
living in.**

Our brands

goki stands for responsible, high-quality wooden toys. Lovingly designed, they provide play value suitable for children aged 1 to 8. The European wood used for the products comes from sustainable forestry and is produced using water-based paints.

With goki evolution, young children discover creative and free play. Their imagination runs free and whole new worlds are created.

The colors are harmoniously matched to each other and emphasize the natural wood character instead of covering it up.

Selected types of wood and handcrafted production in Europe complete the concept.

Made in Europe

The HOLZTIGER range includes over 400 figures. They are individually handmade from solid maple wood, the edges carefully rounded and painted by hand with safe water-based paints. All in and from Europe.

A truly haptic and visual experience.
